PROFILE

I am seeking a challenging position in a dynamic and progressive organization where I can apply my strong programming skills in data science. Eager to expand my knowledge and contribute to the growth and development of the team and organization through innovative data-driven solutions.

EXPERIENCE

Junior Software Engineer
Millennium Systems and Consultant Private Limited

September 2023 – Present

- Managed and supported a key client, focusing on the Remote Banking Transaction Server (RBTS).
- Ensured 24/7 availability for server configurations, issue resolution, and bug tracking on the RBTS.
- Collaborated closely with the client to provide tailored solutions for a seamless experience.

Intern - IT Department
Macrocosm Trade LLP   June 2020 - August 2023

- Introduced the planning, development, and launch of a cutting-edge company website that helped global commodities trading a 20% increase in sales.
- Collaborated seamlessly with cross-functional teams to optimize the technological framework, ensuring the seamless integration of the website into the company's operations.

Customer Sales Representative
MarkHope IT solution   February 2020 - February 2021

Provided exceptional IT support to the company and provided service as a sales agent to the customers
